05 Overview

01

Exterior

The Essence of Dominance

Rugged body lines

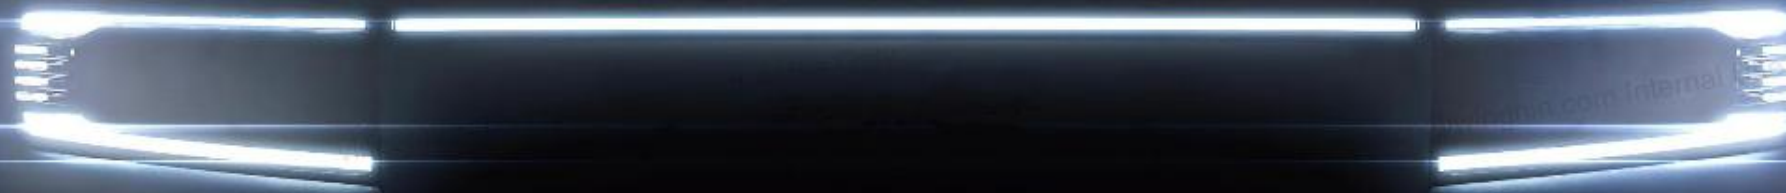

Powerful • Futuristic • Rugged

Powerful stance, futuristic lines, rugged presence built to command attention anywhere, on-road or off-road.

Leading the Light

Future Flagship Tech – Headlight of Starship Wing

LED DRL on both sides drawing inspiration
from starship wings

Bold, futuristic illumination that commands attention and enhances visibility on every journey.

Precision Profile

Length: 5195mm

Departure Angle: 29°

Wheelbase: 2920mm

Approach Angle: 30°

Confidence in Every Angle

- Front approach angle: 30° for confident obstacle and slope entry
- Rear departure angle: up to 29° for strong off-road exit capability

Dynamic Rear Artistry

| Starship rear tail light

Like a starship powering up showing strong energy and a bold, dynamic presence.

Interior
Comfort, Everywhere You Go

Sophisticated Comfort Suite

- Wide, comfortable Nappa leather driver-centric seat with elevated driving position
- Full power adjustment with one-touch entry for effortless access
- Premium stitched detailing for enhanced luxury appeal

Front and second row with ventilation, massage

*Premium Spec equipped with second row massage

Intelligent Cockpit Architecture

**17.3-inch LCD 2.5K
Central Touch Screen**

Memory: 16GB RAM + 256GB ROM

Network: 4G compatible

The central touch screen with 16GB RAM and 256GB storage, delivering smooth performance, sharp visuals, and seamless in-car connectivity.

Ergonomic Comfort

8 Way Electric Adjustable (Driver)
6 Way Electric Adjustable (Co-Pilot)

Ventilation with 3 intensity level
10 Point massage

Back Seats Folds Down

40|60 folds down supported

**Dynamic Model*

On-Board Refreshment

Compressor Fridge “Real fridge”

Cooling: -6 to 6°C

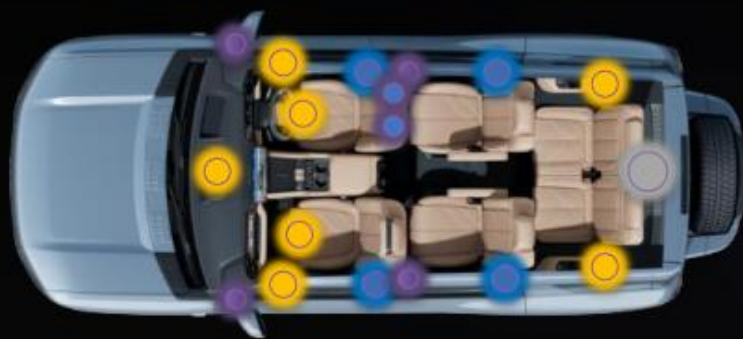

Heating: 35 to 50°C

Capacity: 7 liters (can hold 6 bottles of mineral water)

Features: Power-off memory, delayed power-off (1-12 hours), remote activation

Performance & Technology

DMO

Electrified Off-road Pioneering Platform

The world's first electric-based, body-on-frame, off-road longitudinal PHEV platform, perfectly balancing city and off-road use

DM-i

Off-Road

Characteristics

Effortless

Strong performance – 0–100 km/h acceleration in as fast as 4.8 seconds

Eco

Low fuel consumption – 9.89 L/100km in low SoC, combined range up to 1040 km(NEDC)

Quiet

Exceptional quietness – NVH performance comparable to urban SUVs

Smooth

Seamless power delivery – pure EV-like smooth acceleration

Green

115km E-Range(NEDC)

Superior

Superior Power

Outstanding power delivery

Superior Passability

All-terrain exploration capability

Superior Safety

Comprehensive enhancement of driving safety

The DMO platform's pioneering innovation lies in breaking the dichotomy between "urban comfort" and "rugged off-road capability," achieving a perfect balance of both

Effortless Power

0–100 km/h acceleration in 4.8 seconds

5.0T ICE engine equivalence

Max Power

450 kW

Max Torque

760 N·m

Acceleration

4.8 s

Max Horse Power

611 HP

The Denza B8 delivers fast acceleration in just 4.8 seconds, offering instant response and confident performance whenever you need it.

Unrivalled Touring Endurance

**EV Range
(NEDC)**

115 KM

**Combined Range
(NEDC)**

1040 KM

**Fuel Efficiency
(Combination)**

9.8L/100KM

The Denza B8 delivers an impressive fuel efficiency, giving a powerful drive with optimized consumption.

SMART ENTRY

Safety

BATTERY

LFP Blade Battery

5-Layer Protection Structure

CTC (Cell to Chassis)

Shield for Cell

CTC design integrates the battery directly into the chassis, improving structural strength, space efficiency, and overall driving stability.

AIRBAG

All models equipped with **9** airbags as standard

- ① Front passenger's airbag
- ② Driver's airbag
- ③ Left front side airbag
- ④ Right front side airbag
- ⑤ Right rear side airbag
- ⑥ Left rear side airbag
- ⑦ Left side curtain airbag
- ⑧ Right side curtain airbag
- ⑨ Center Airbag

SAFETY RATING

ANCAP 5-star ★★★★★

ANCAP was provided with technical information and additional test data to show that the test results of the B8.

DENZA B8

APPLIES TO:
All variants

VEHICLE TYPE:
Large SUV

ENGINE / MOTOR TYPES:
Plug-in Hybrid

BUILT FROM:
October 2025

ON SALE FROM:
January 2026

2025-2025

RATING EXPIRES:
December 2021

AIRBAGS:
Dual frontal, side chest, side head, centre

ANCAP
SAFETY

TESTED
2025

★★★★★

The Denza B8 was introduced in Australia and New Zealand in January 2026. The ANCAP safety rating for the Denza B8 is based on testing of its partner model, the Denza B8, conducted in 2025. ANCAP was provided with technical information and additional test data to show that the test results of the B8 also apply to the B8. The ANCAP safety rating applies to all B8 variants.

Dual frontal, side chest-protecting and side head-protecting airbags are standard. A centre airbag which provides added protection to front seat occupants in side impact crashes, is also standard.

Autonomous emergency braking (AEB), Vehicle-to-Vehicle (V2V), Junction & Crossing, Redesign and Head-On and a lane support system with lane keep assist (LKA), lane departure warning (LDW) and emergency lane keeping (ELK), and a speed sign recognition system are standard equipment.

SAFETY NOTE

Top leathers are not available in the third row of seats. Installation of child restraints in the third row is therefore not recommended.

ASSESSMENT SCORES

Overview

DiSus – P

Active damping adjustment

Sensors monitor sprung and vibrations of the vehicle

The controller actively outputs damping adjustments via shock absorbers to achieve vertical comfort control

Roll Suppression

vs

Without DiSus-P

With DiSus-P

Pitch Control

Without DiSus-P

With DiSus-P

Height Adjustment

Maximum Lift Capacity

5000 kg

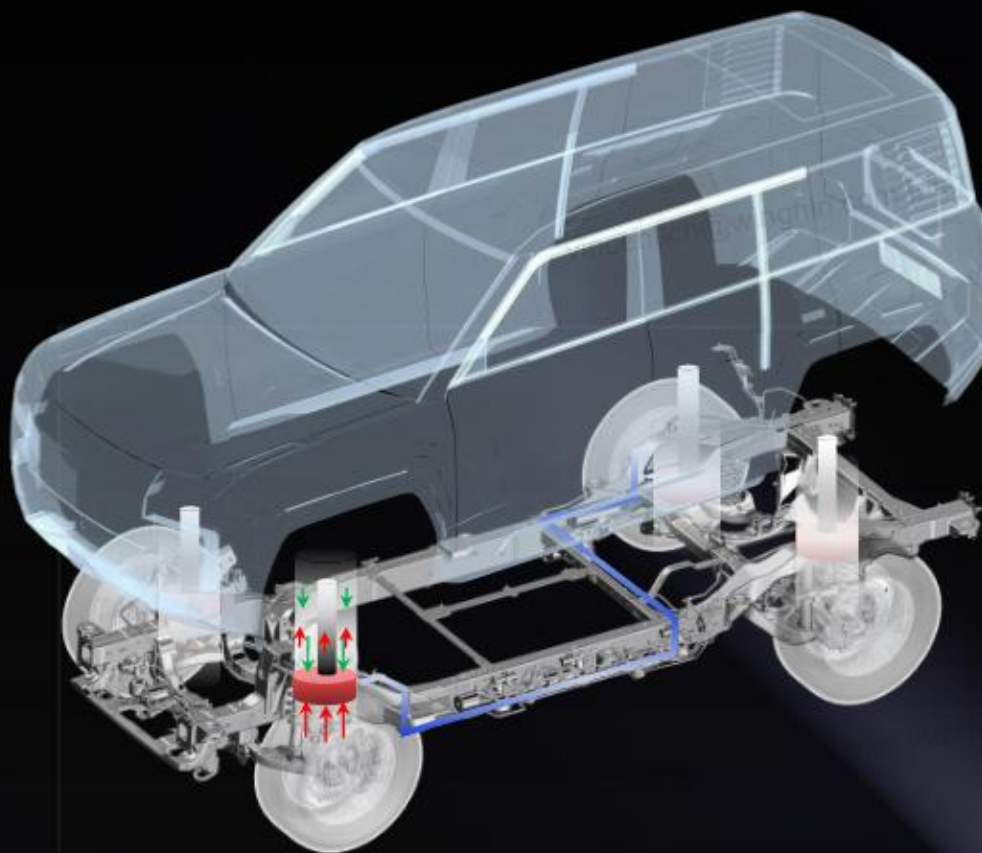

Suspension Adjustment Travel

Up to **140** mm

Ground Clearance

Up to **310** mm

*Standard: 220mm

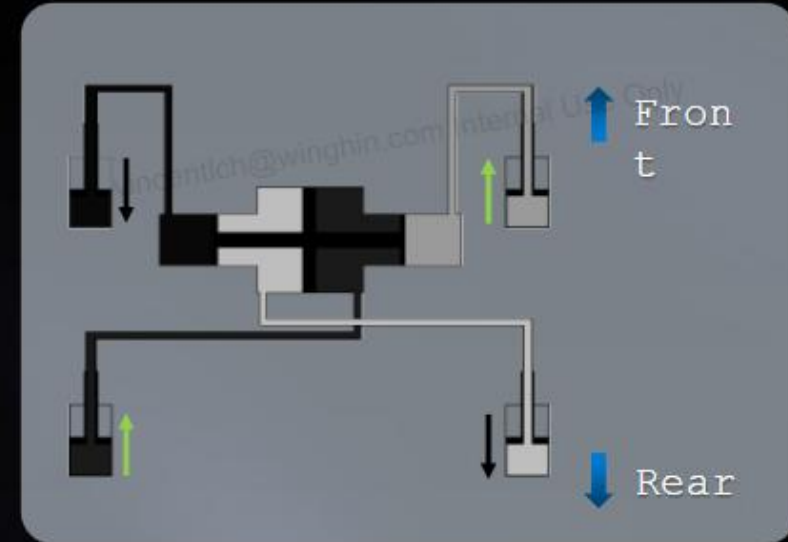

Four Wheel Linkage

Unique advantages of hydraulic suspension over air system

More Suspension Range, keeping all four wheels on the ground

Four-Wheel Linkage: All wheels rise/fall simultaneously or independently, improving off-road passability and maximizing wheel articulation/ground contact

CAMP LEVELLING

When the vehicle is stationary and stays in an uneven ground surface, activating Camping Mode adjusts the body to a nearly level position
